

10/5/2020

Dear Parents:

I was informed last night that one of our staff and family have been contacted by the Health Department, and been placed in quarantine. One family member was with someone who tested positive for COVID. Our staff member will provide an update later today. This staff member is not on the teaching faculty.

I will update you regarding any Health Department notifications I receive today as well. Thank you.

Respectfully,  
Michael Cavanaugh
